EDUCATION

University of Southern California, Los Angeles, CA

May 2020

- *B.S. in Computer Science*, GPA: 3.4

St. Francis College Preparatory, Wheaton, IL

- *Diploma with Honors*, Weighted GPA: 4.8

COURSEWORK

- Data Structures and Object-Oriented Design
- Software Engineering
- Introduction to Artificial Intelligence
- Probability and Statistics for Computer Science
- Principles of Software Development
- Algorithms and the Theory of Computing
- Mobile Application Development (iOS)
- Calculus, Linear Algebra and Differential Equations

SKILLS

Programming Languages: Java, C++, Swift, Python, JavaScript, HTML, CSS

Software/Tools: MySQL, Firebase, Git, Tableau, Excel for Data Analysis, Microsoft Office Suite, SolidWorks, AutoCAD

EXPERIENCE

The Northridge Group

May 2018-Present

Data Analyst Intern

- Created interactive dashboards and data visualizations with Tableau for internal analysis as well as client deliverables
- Researched and Developed an automation system for secure file encryption and transfer using Python scripts
- Utilized Tableau and Excel Pivot Tables to perform Data Analysis and find actionable insights from complex datasets

Wise Plastics Technologies

May 2017 - Aug 2017

Manufacturing Engineering Intern

- Designed two full plant layouts, using AutoCAD, of main production factories
- Utilized plant layouts to model and plan out a full building expansion plan
- Designed and structurally analyzed a multilevel mezzanine using SolidWorks
- Designed safety cages for injection molding machines and a safety locking mechanism for mold transportation

PROJECTS

Darker Notes

Sept 2018 - Dec 2018

github.com/Laurenzarus/DarkerNotes

- Led a team of 4 to develop a note-taking web application with Markdown and LaTeX support
- Managed database storage and interaction through MySQL including login, notifications, and sending files
- Connected all front-end code to back-end code through AJAX and jQuery
- Gained experience with GitHub branching, merging, and project management
- Technologies: Java, JavaScript, MySQL, Git, jQuery, AJAX

FitTrack

Nov 2018 - Dec 2018

github.com/ctbuckley/FitTrack

- Individually developed an iOS app that makes tracking workouts quick and easy
- Utilized Firebase to offer full user login, signup, and data storage
- Visualized user data using iOS Charts API to display health metrics and weight lifting progress over time
- Implemented a system to suggest areas for improvement based on user's personal metrics and goals
- Technologies: Swift, Firebase, HealthKit, iOS Charts
